About Aerie Pharmaceuticals, Inc.

Aerie is a pharmaceutical company focused on the discovery, development and commercialization of first-in-class therapies for the treatment of patients with eye diseases and conditions including open-angle glaucoma, dry eye, diabetic macular edema (DME) and wet age-related macular degeneration (wet AMD). Aerie's first novel product, Rhopressa[®] (netarsudil ophthalmic solution) 0.02%, a once-daily eye drop approved by the U.S. Food and Drug Administration (FDA) for the reduction of elevated intraocular pressure (IOP) in patients with open-angle glaucoma or ocular hypertension, was launched in the United States in April 2018. In clinical trials of Rhopressa[®], the most common adverse reactions were conjunctival hyperemia, corneal verticillata, instillation site pain, and conjunctival hemorrhage. More information about Rhopressa[®], including the product label, is available at www.rhopressa.com. Aerie's second novel product for the reduction of elevated IOP in patients with open-angle glaucoma or ocular hypertension, Rocklatan[®] (netarsudil (0.02%) and latanoprost ophthalmic solution (0.005%)), was launched in the United States in May 2019. In clinical trials of Rocklatan[®], the most common adverse reactions were conjunctival hyperemia, corneal verticillata, instillation site pain, and conjunctival hemorrhage. More information about Rocklatan[®], including the product label, is available at www.rocklatan.com. More information on Aerie Pharmaceuticals is available at www.aeriepharma.com.
